DESCRIPTION

Provide Sidewalk and Handicap Parking
Building 72A

General:

This is to address the necessity of providing a sidewalk and a handicap parking for Building 72A, Naval Research Laboratory, Washington, D.C.

Scope of Work:

1. The Contractor shall provide all necessary labor, equipment, parts and supplies to:
 - Remove grade and provide new sidewalk and two handicap parking spaces.
 - Provide 6" thick sub grade per applicable ASTM D1557.
 - Grade and provide underlayment for new sidewalk. Slope to be maximum one inch to a foot with level landings. See attached drawings and photos for new sidewalk to existing ramp and new parking area.
 - Provide approximate 45' of new concrete handicap accessible ramp 5' wide.
 - Provide control joint every 6' feet for sidewalk and 10 feet in each directions for handicap parking. Depth shall be 1/4" of the overall slab thickness with joint filler.
 - Provide 1/2" neoprene expansion joint with compressible material filled in between existing slab and new concrete.
 - Provide two handicap parking spaces on south side of building 72A. Parking area shall be 18' x 27' wide for two parking spaces.
 - Provide parking lines and signage for handicap parking area.
 - Parking area shall be six inches thick concrete slab. Tie into existing concrete roadway with expansion joints.
 - Concrete shall have a minimum strength of 3000 psi at 28 days.
 - Reinforcement shall be WWF 6x6/W2.9x2.9, ASTM A185 U.N.O.
 - Provide grass seed and necessary coverage on grass areas affected by construction to match existing grass areas.
 - Keep existing sewer manholes clear from the new concrete
 - Contractor shall be responsible for any damages to existing below grade utilities.
 - Clean up job site and remove all debris.
 - Submit fabrication shop drawings for approval with sub-base, concrete, reinforcement details, etc. prior to fabrication and installation.

Start of Contract:

2. The Contractor shall notify the Contracting Officer in writing once all equipment, materials and tools are available and ready to be installed in accordance with this contract. The Government and the Contractor shall mutually agree upon a start date and the Contractor shall be given a minimum of seven days notice to begin work.

Material and Equipment Submittals:

3. Upon award of the contract, the Contractor shall provide manufacturer's materials and equipment specification bulletins and/or cut sheets pertaining to this contract work. The Contracting Officer's Technical Representative shall review the Contractor's materials and equipment specification data information for approval and/or disapproval.

Execution of Work:

4. The contract work shall be accomplished during normal hours of operation, 0700 through 1600, Monday through Friday. The duration of this contract shall not exceed (30) days from the start of work.

Housekeeping:

5. During the contract period, the Contractor shall be responsible for maintaining a continuous clean working environment in all areas where contract work is being accomplished on a daily basis. At the end of each working day, the Contractor shall sweep down and clean the working area, collect and remove all debris from Government property. NRL dumpsters may not be used

Waste Management:

6. The contractor shall be responsible for ensuring, to the maximum extent possible, that any waste generated from this contract is diverted from landfills and incinerators and either recycled and/or reused. Waste that can be considered for recycling or reuse includes metals, concrete, gypsum products, paper and cardboard, wood products, masonry, carpet, plastics, mechanical and electrical products and equipment. The Contractor shall be permitted to retain any profit from the sale of recycled or reused waste. The Contractor shall be required to submit to the Contracting Officer within 15 days of the end of the contract, all records of waste generated from the contract. This report should include: waste category; total amount of waste (in pounds or tons) amount and type of waste recycled or reused; name of recycling facilities used; amount and type of waste landfilled and/or incinerated; name of landfill and/or incinerator used. The Contractor shall use his own dumpsters for disposal of emptied and flattened cardboard products.

Environmental Management System Information:

7. The Contractor shall be aware that the Naval Research Laboratory has implemented an Environmental Management System (EMS) as directed by Executive Order 13423 *Strengthening Federal Environmental, Energy and Transportation Management*. EMS policy requires a reduction in hazardous waste disposal through alternate recycling and reclamation efforts. The Contractor shall be aware that the work activities related to this contract can cause real or potential significant environmental impact; thus, the Contractor shall competently perform all duties and responsibilities with a commitment to EMS policy. Pollution Prevention and Right-to- Know Information shall be observed during the duration of this contract.

Safety:

8. The Contractor shall conform to Federal, State and local safety laws, rules and regulations, to include complying with 29 CFR 1926, and EM 385-1-1, US Army Corps of Engineers Safety and Health Requirements Manual. The contractor shall provide a competent person as site safety and health officer and competent person(s) for hazards identified in the activity hazard (AHA). Safety training requirements for the site safety and health officer and competent persons are provided in the EM 385-1-1. The contractor shall submit an accident prevention plan including AHA for government review and approval.

Point of Contact:

9. For the execution of contract work, the point of contact shall be Marco Carreras, 767-2548, and shall be the contact for all questions and scheduling of work as well as inspections of work and payments to the Contractor. For further information, please contact Shawn Nolan on ext. 202-767-1403 at Building 57, Second Floor.

All questions before award of the purchase order shall be direct to the contracting officer only, Richard Hobson: richard.hobson@nrl.navy.mil; 202-767-6198.
